Background

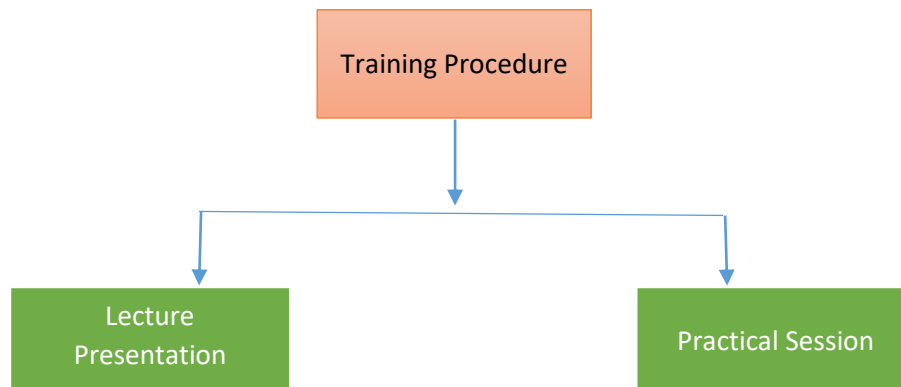

Safety Management Foundation (SMF), a practical based movement to remain safe in disaster. Our slogan is Safety First, Training Must. SMF is a registered non-profitable voluntary organization working with education, research and practical based disaster preparedness and disaster management in Bangladesh. We also work for poverty alleviation through empowerment distressed and helpless community people especially for women, children and person with disabilities.

Safety Management Foundation started its journey after the incident of Tazrin Fashion and Rana Plaza Tragedy, basically SMF is providing training to the community people to be aware and to know how to remain safe in disaster. Most of the trainers of SMF are well trained from Fire Service and Civil Defense.

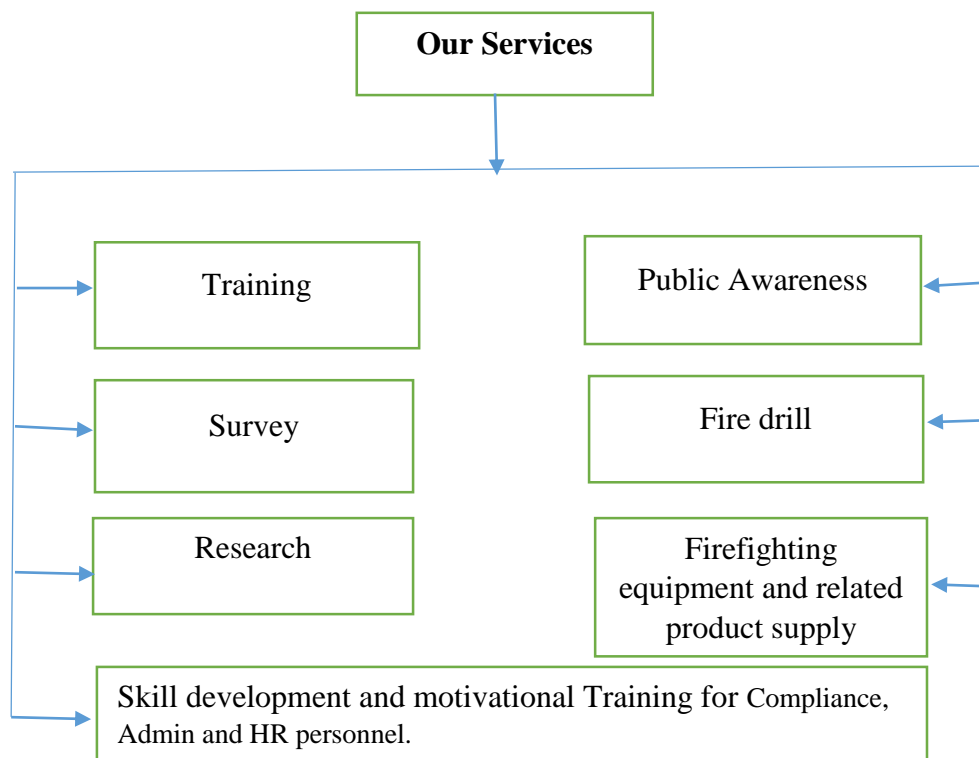

Training Topics:
